Trends
Youth and adults in Delaware have reported a steady decline in cigarette use since the late 1990s - but vaping is on the rise.

Smoking in the Home
Among Delaware middle and high school students, 1 in 5 report exposure to secondhand smoke at home in the past week.

Perception of Harm
Two-thirds of Delaware 11th grade students report that smoking a pack of cigarette a day presents a 'great risk'.

Among high school students, twice as many students report using an electronic vapor product in the past month compared to students who report smoking cigarettes in the past month.
