Marijuana Use in Delaware

Prevalence
Nearly a quarter of surveyed 11th grade students used marijuana in the past month.

Risky Behavior
More than 10% of surveyed 11th graders report driving after using marijuana in the past year.

Age of Onset
Among high school students in Delaware, 7% had used marijuana before the age of 13.

Self-reported Past Month Marijuana Use (%)

While past month marijuana use has declined by roughly 50% among 8th grade students over the past 20 years, it has remained relatively stable for 11th graders.
