Reported Past Two Week Binge Drinking* Among Delaware 8th Grade Public School Students: 2019-2020

Rate of Binge Drinking

- Less than 1%
- 1-1.9%
- 2-3%

State Rate: 1%

Data Notes:
*Binge drinking is defined as four drinks for females and five drinks for males in a row.
-Certain ZIP codes were combined to protect the confidentiality of the participating school districts.
-Due to the COVID-19 pandemic, the data collection for the Delaware School Survey was temporarily suspended. This suspension resulted in a reduction in Delaware School Survey data for the 2020 survey year and can be seen in the increased number of ZIP codes without available data.
