An Increase in Delaware Alcohol-related Traffic Injuries and Fatalities 2011 and 2012

Alcohol-related fatalities were 47% of all traffic fatalities (103) in Delaware in 2011, and 46% of 2012 fatalities (116), both of which are an increase over the 2010 rate of 40%. Alcohol-related injuries and fatalities during the holiday season from Thanksgiving through New Year’s Eve also increased significantly compared to the previous year.
