DELaware Secondary School Student Assent
And Survey Instructions

This survey is part of a study the University of Delaware does every year to provide information on student behaviors and beliefs, including those about eating habits and the use of cigarettes, alcohol and other drugs. Results are used to make better decisions about the kinds of programs and policies needed to support the health and well-being of Delaware students.

All answers are entirely:

- **Confidential**—no one will see your answers or know how you answered the questions.
- **Anonymous**—do not put your name on the survey; we do not want to know how any one person answered, only about percentages of answers of all students combined.
- **Voluntary**—there is no penalty if you choose not to fill out any part of the survey or all of it.

This IS NOT A TEST, so there are no right or wrong answers. If you don’t find an answer that fits exactly, choose the one that comes closest. If a question does not apply to you, or if you are not sure what it means, just leave it blank. Please work as quickly as you can. If you have any questions, raise your hand and I will come to help you. **Unless it says “Mark All That Apply,” please mark only one answer for each question.** When you are finished, turn your booklet over and raise your hand; I will come around with an envelope for you to put your survey in. Then you can work quietly at your desk on something else until everyone has finished.

Remember:

- Read the instructions before you answer.
- Fill in the circle next to the answer you choose completely, like the example below:

I am currently attending school:

- **Yes**
- **No**

Thank you very much for being an important part of this study.
